

FAA Safety Team Denver presents:

# **Flying in the Colorado Rockies - A Free Mountain Flying Seminar**

David Cole is an aviation manager, and currently serves as Chief Flight Instructor for Colorado Northwestern Community College FAR 141 program at Rangely, CO, through the SLC FSDO. David's prior experience includes being a DPE for Douglas A-26 type rating examinations through the DEN FSDO, and a former FAA ASI assigned to the Geographic Division of the Denver FSDO. David has also served as a Line Check Airman, and former commercial airline pilot. Over his 30+ year career, he has held a diverse array of operational and consultation positions, including as a flight crew member, flight instructor, corporate director, and airport manager.

This two hour session is ideal for private pilots, flight students, local professional flight crews, and other frequent flyers to Eagle County (EGE), Aspen (ASE), and Rifle (RIL). This seminar will cover the essentials of flight planning, changing mountain weather, and tips and tricks to help you traverse some of the world's most challenging, yet rewarding, terrain.

## Event Details

**Sat, Apr 8, 2023 - 10:00 MST**

**Vail Valley Jet Center**

**Maintenance Hangar**

517 Airport Road

Representative Loren French

**Directions:** The Vail Valley Jet Center Maintenance Hangar is located on the north side of the Eagle County Regional Airport. Airport Road can be accessed from Highway 6. The facility is located at the end of Airport Road; drive past the Control Tower and HAATS (High Altitude Army Aviation Training Site) There is a large parking lot at the end of the road and a pedestrian gate to access the facility. If flying to the event advise the tower you would like to park at the north side, the facility can be accessed from B4 or B3. B4 will require taxi back to the east past the helicopter ramp for the Colorado National Guard Facility. The seminar is being held on the 2nd floor conference room.
