

EAA Chapter 1627 Boulder CO IMC Club

EAA Chapter 1627 offers an IMC Club for our members - and aviation enthusiasts - who are interested in improving their flying in instrument conditions.

The IMC Club's purpose is to promote instrument flying, proficiency, and safety. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency in instrument flying.

The IMC Club monthly programming is developed and produced by EAA, but it does not use a lecture or presentation format. Instead, an actual scenario is presented and is followed by a group discussion – so audience participation is encouraged! Since everyone has a different experience level and different airplane capabilities, we can all benefit from the discussion.

We provide snacks and drinks.
