

Missions with a (Mental) (Attitude) Approach

This one hour presentation will address the FAA's continued focus on pilot mental health before, during and after flight. This topic is designed to be interactive using the experience, hours accumulated and missions conducted in your particular general aviation environment.

We will also conduct a refresher on the "Five Attitudes" and examine a new set of related 'attitudes' for 2024. The input of the participants in this area is designed to obtain feedback to the recommended additions to the five basic attitudes we have all experienced during our flying activities.

On Hwy 36 East or West, Follow signs to Rocky Mountain Metro Airport (RMMA) and the terminal building. Ample parking is available adjacent to the terminal building.

A message from the National FAASTeam Manager
