

EAA Chapter 515 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences.

Our speaker Bill Standerfer will also discuss recent weather patterns, scenarios and quizzes from the Instrument ground school he teaches, as well as BoldMethod IFR quizzes.

The scenario(s) we will discuss at this meeting is/are: "Electrical Failure"

Bring your EFB, your experience, and your questions, and be ready to participate.
