

EAA Chapter 515 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenario(s) we will discuss at this meeting is/are: What to do if engine instruments indicate a possible problem, such as low oil pressure. Is the indication correct or just a bad instrument? Should you fly in IMC just after an airplane has come out of maintenance?

Bring your EFB, your experience, and your questions, and be ready to participate.

Event Details

Wed, May 21, 2025 at 19:00 MDT

Jet Center FBO

4824 Earhart Rd

Loveland, CO

Contact: Bill Standerfer
