

EAA Chapter 1627 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences.

The scenario we will discuss at this meeting begins with a question regarding use of EFBs in unfamiliar before and a video scenario regarding autopilot malfunctions. Participants will discuss how they would handle these situations and learn from one another's experience through "hangar flying" the scenarios. The discussion will culminate with excerpts from FAA publication Instrument Flying Handbook Chapter 9 regarding automation management.
