

Peyton - EAA Chapter72 Monthly Meeting

The WINGS Program is based on the premise that pilots who maintain currency and proficiency in the basics of flight will enjoy a safer and more stress-free flying experience. The WINGS Program consists of learning activities and flight tasks selected to address the documented causal factors of aircraft accidents. We will present how to use the WINGS program to complete a phase of WINGS.

Piper Lane dead ends facing the MLAA (Meadow Lake Airport Association) hangar. Parking can made facing the hangar, or on the left or right sides of Piper Lane extending south of the hangar. The meeting will be held on the second floor on the hangar.

A message from the National FAASTeam Manager
