

EAA Chapter 72 Monthly IMC/VMC Club Meeting

The EAA IMC/VMC Club provides a "hangar flying" experience organized around both instrument and visual flight conditions in order to promote flying safety, education and proficiency.

Every meeting consists of reviewing "questions of the month" for discussion followed by a couple of real life flying scenarios involving instrument and visual flight conditions.

The scenarios we will discuss at this meeting are: "Late Night Pickup" (IMC), and "Departure in the Dark" (VMC).

Bring your experience, and your questions, and be ready to participate.

Piper Lane dead ends at the MLAA hangar. Parking is at the end of the road in front of the hangar and along the road on either side as you drive toward the hangar.

A message from the National FAASTeam Manager
