

## EAA Chapter 1627 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

**The scenario(s) we will discuss at this meeting is** handling an emergency while in instrument meteorological conditions shortly after departure. We will have a related discussion from Chapter 7 of "The Instrument Flying Handbook" regarding considerations of instrument takeoffs and leveling off in instrument conditions.

Bring your EFB, your experience, and your questions, and be ready to participate.
