

EAA Chapter 72 Monthly IMC/VMC Meeting

The Meadow lake Airport is a non-towered airport which is used extensively by glider flights, ultra-light craft, sport aircraft, homebuilt aircraft, helicopter, turbine and piston airplanes. Operations include flight training, touch and goes, instrument approaches all resulting in a busy airport. In this meeting will discuss and review collision avoidance technics and proper communication at non-towered airports.

Piper Lane ends facing the MLAA (Meadow Lake Airport Association) hangar. Parking can be made facing the hangar and/or on the left and right sides of Piper Lane extending South of the hangar. The meeting will be held on the second floor of the hangar.
