

Your Preflight and Personal Minimum Checklist

Your aviation maintenance technician is your best friend when it comes to preparing an aircraft to leave the ground. Now, it is your turn to check things out on your aircraft before you roll down the runway. Join us for an hour this evening and meet with two of your aviation safety advocates. We will trek into the not-so-unknown zone of a preflight inspection. Or, is it?

Directions: The building is located past Aviation Drive on Brundage Lane. We will meet at the Sheridan County Airport FBO conference room for an hour.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
