

FAASTeam presents:

# Loss of Control

Stalls and Spins, whether intentional or unintentional, may be life threatening. You will see a video which includes cameras mounted outside and inside the aircraft to give you the "what really is happening" view. There will be review on what the video covered and open discussion.

**Directions:** 2 miles southeast of Twin Bridges on Airport Road, at the FBO.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
