

ATC and Pilot Communications

We will discuss common ATC and pilot communications with a tower controller. Common mistakes, scenarios and best practices to avoid pilot deviations. This safety event will have an open dialogue to promote honest discussions of real world communications with ATC.

Directions: Drive to the Missoula Airport. The conference room is located on the first floor in the terminal building.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
