

Oddities Anomalies and Curiosities in the National Airspace

This review of the National Airspace includes an entertaining mix of interesting factoids and history along with an explanation about why certain portions of airspace are depicted in an odd or non-standard way at specific locations found on various Sectional charts. We will also look at Special Use Airspace (SUA) and reveal some insight about some little-known types of SUA that exist but do not appear on the charts.

Directions: Exit off of I90 onto Mullaney Lane South of I90. You will see the Billings Hotel and Convention Center on your Left at the first traffic light.

A message from the National FAASTeam Manager
