

Vernal Pilot Safety Meeting

We will discuss flight planning and radio procedures for flight into Class B, C and D airspace. How to avoid and prepare for a runway incursion event. Learn many tips and tricks on how to get the most out of your iPad for preflight planning and enroute use.

Directions: The meeting is in the airport administration building to the SW of the airline terminal building.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
