

Vernal Pilot Safety Meeting

We will review runway incursions and how to avoid it. Please go to the FAASafety.gov (WINGS) website, select "Activities, Courses & Seminars", select "Courses", select "WINGS Courses" and take the following courses before the meeting: Runway Safety (ALC-94) and Hold Short for Runway Safety (ALC-48). This way you will be better prepared to discuss runway safety. We will discuss airspace from A to G and Special VFR, when to use it and how to do it.

Directions: The meeting is in the airport administration building to the SW of the airline terminal building. Please bring a chair.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
