

Beyond the Aircraft Preflight

Do you preflight your aircraft or just give it a cursory look over? Use knowledge to overcome the human tendency to be complacent about how you prepare to fly. The FAA requires maintenance records to be kept on the aircraft you fly. Are you aware of those records? Are you aware of recent maintenance or required maintenance that will be due soon? Come and learn from the professional.

Directions: Enter airport grounds, through the security gate then head northwest to Hanger 49. Call for security code if you need to.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
