

GA Piston Engine Management. (Lean of peak. Something you were told not to do)

Overview of aircraft engine operation. The Combustion process. Making that fancy new engine monitor pay for itself. Bottom line. How much can I save?

Directions: Office faces east. Park on the east side of the building. It will be marked with the EAA Chapter 936 banner, if it is not too windy. Someone will be by the door.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
