

FAASafetyTeam presents:

Loss of Control

Join Mr. Rick Jeffs, SLC-FSDO FAASafety program Manager. Mr. Jeff's presentation will address recommendations from the General Aviation Joint Steering Committee – a government / industry group that analyzes GA accidents and incidents. The committee's study of accidents precipitated by loss of control (LOC) suggests that improved pilot knowledge of the causes and symptoms of spatial disorientation can reduce the number of fatal loss of control accidents.

Directions: Commemorative Air Force Hangar

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
