

Wings Marathon

Aeronautical decision making (ADM) is a systematic approach to the mental process used by airplane pilots to consistently determine the best course of action in response to a given set of circumstances.

Review the 6 steps to aid in the ADM process. Plus review and address the 5 hazardous attitudes.

Directions: Event to be held in the CNCC hanger, located at the airport.

Parking in front of the main office and any open space you can find.

If you have any questions, look for someone in a red/white shirt, CNCC.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
