

Is My Head Screwed On?

Experience the perils of spacial disorientation on the ground instead of in the air. A special chair is being brought in to help us do that. Come and have an evening of fun and enjoy the knowledge you receive. We will have dinner starting at 5:30pm and the presentation will start at 6pm.

Directions: After having arrived at the airport and entered through the gate. Turn left on to the tarmac and continue down to a 2-story bldg., this is the FBO. If flying in, turn off onto the taxiway and park your plane with others. Class will be held in the main room downstairs. Call Art Granger for the gate code. 435-272-9999

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
