

Radio Communications Done Right

In this AOPA-developed seminar, we will discuss good radio communication procedures used to increase flight safety. We will cover best communications practices in a variety of airspace and situations using proper language and efficient use of communications networks and procedures. We will also talk about the potential costs of poor or non-existent communications.

Directions: From Horizon Drive follow signs to General Aviation East and West Star FBO. Colorado Flight Center is located on the second floor of the 800 hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
