

## Loss of Control Inflight

NTSB reports the biggest killer of GA pilots is Loss of Control while airborne (LOC-I) . Lets get together and discuss this problem. We as pilots know that our first priority is to maintain control of the aircraft. Why do pilots lose control then? Lets talk about WHY versus the common blame being "Pilot Error" (WHO) and going on a merry (tragic) road.

**Directions:** Directions:  
1 mile South of Heber City on US 189

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

Thu, Nov 10, 2016 - 19:00 MDT

#### Pilot Makers -Advanced Flight Academy
