

Instructions for Continued Airworthiness (ICA) and Improper Maintenance on Powerplants

This presentation is designed to give an overview of guidance about instructions for continued airworthiness associated with Field Approvals, STCs and Manufactures instructions. We will also look at a case study about not following Instructions for Continued Airworthiness. A brief discussion of Powerplant Maintenance related to loss of power associated with aircraft accidents will be addressed.

Directions: The hangar is located on the northwest intersection of Boeing Avenue and Thunderbolt Street at the Pocatello Airport. Please check in at the front office.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
