

## Owner/Operator Maintenance - Preventive Maintenance

With the rapidly increasing cost of flying, particularly aircraft maintenance, what can you as a pilot do to reduce these costs? The FAA defines preventive maintenance as "...simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations." According to 14 CFR 43 Appendix A, pilots can accomplish the many items listed under "Preventive Maintenance" on their aircraft.

Attend this informative safety meeting and learn what you can do to reduce the cost of flying. Spend more money on fuel with the money you save on maintenance!

**Directions:** Enter the front office of Leading Edge Aviation where you will be guided to the attached hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Mon, Jan 8, 2018 - 18:30 MST**

**Leading Edge Aviation**

2500 N. 900 W.

Logan, UT 84321

**Contact: Richard Jeffs**

**(801) 257-5073**
