

## Getting Back Into The Cockpit!

If you have not been flying much in the last few years the world has changed, so has aviation. Come join us for an evening to see some of the new changes in aviation flying, currency and certification, and how to get informed and excited about getting back into the world of aviation. Or just starting for the first time. It may be easier and cheaper than you thought!

Richard Jeffs will also make a small presentation MX Placards and Enhanced Vision Systems.

**Directions:** Turn north on to Aviation Way, Continue to a "T" intersection at Kittyhawk Dr., Turn left/west towards runways. It is a two-story building the entrance is on the north side as you walk towards the security fence.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
