

CFI Open Forum

Why Should CFIs Include the Compliance Philosophy in Student Training? What about Risk Based Decision Making (RBDM) or Safety Management. All pilots are responsible for safety within the National Airspace System and to comply with FAA Regulations. The FAA depends on airmen to voluntarily comply with regulations and do their part to promote safety. Don't miss this opportunity to exchange techniques and ideas with other CFIs that may lead to new insights about the importance of teaching this important topic. Click on the link below and register TODAY!

Directions: The CFI open forum will be located in the hanger. The front desk will have directions.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
