

Uncontrolled Airfield Ops in the Busy Salt Lake Area

The airspace in the Salt Lake area is busier than ever - especially in and around our uncontrolled airfields. This seminar will take a deep dive into best practices to keep you safe in the traffic patterns at U42, TVY and BTF. Topics to be covered will include:

- Traffic pattern entries,
- Flying a courteous pattern,
- Identifying "local knowledge checkpoints" (white water towers, brickyard, etc.),
- Dealing with IFR practice approach traffic,
- How parachute jumping operations effect the TVY traffic pattern,
- And many more

Proceed through the vehicle gate into the parking lot on the south side of the facility. Enter the main doors from the south side.

A message from the National FAASTeam Manager
