

My Engine Just Quit

A conversation on engine out procedures, the impossible turn and decision making when your worst nightmare comes true! We will discuss and talk about my experiences with engine failures and how I handled them. And talk about the importance of knowing our emergency procedures and how to land the plane with little to no power! How to chose a suitable landing spot and why “the odds of your survival are inverse to the angle of your arrival!”

An in person seminar with free parking for both cars and aircraft.

Arriving in the Car. Plan for up to a 30 minute walk.

Look for signs!
