

Two scenarios - VFR and IFR problems to be solved

Hangar flying at its finest!

These sessions will start at 8pm, following the CAP monthly meeting from 7 to 8pm. Come early and meet the CAP volunteers. The EAA IMC/VMC will provide a scenarios for open discussion to promote safety and build proficiency. While participants may have different experience levels with different aircraft capabilities, everyone can benefit from an open exchange to improve Flying skills! Sessions include both visual and instrument scenarios.

Each Club start with a short video; which ends with, "So, what would you do?" This is where it gets interesting, with all levels of experience adding to the discussion.

About 1 hour for both Club discussions.

WINGS Credit is available for the seminar.
