

Over Reliance on Automation

GAJSC study of Fatal General Aviation Loss of Control Accidents found that a significant number may have been caused, at least in part, by pilot reliance on aircraft automation rather than hand-flying skill and proficiency.

1887 S 1800 W, Woods Cross, UT, 84087. Enter through the main door on the east side of the building, go up the stairs, and the classroom will be straight ahead.
