

Provo Annual Local Runway Safety Action Team Meeting - Hybrid Event

Runway incursions continue to be a major factor in aviation safety programs. Through user input, the Air Traffic Controllers and Office of Runway Safety can improve the services provided to the aviation community. Please attend this program and provide your input so we can make the Provo Municipal Airport safer for all users.

The seminar will be held in the Outlook conference room on the second floor south side of the building.

The airport recommends all visitors use the long-term parking lot with the first two hours free.
