

Implementing a Practical Safety Management System (SMS) in a Flying Club Environment

Event Details

This seminar introduces practical Safety Management System (SMS) concepts tailored for general aviation flying club operations. Participants will explore hazard identification, risk management, safety culture, maintenance coordination, instructor standardization, and proactive operational safety practices applicable to flying clubs, partnerships, and general aviation organizations.

Proceed through the vehicle gate into the parking lot on the south side of the facility. Enter the main doors from the south side.
