

## Owner/Pilot Mechanic Relations

We will cover legal responsibilities, safety considerations, common misunderstandings, and real-world maintenance situations that every pilot should understand. Whether you own an aircraft, hope to own one someday, or simply rent and fly, you may be surprised to learn what responsibilities belong to the pilot, the owner, and the mechanic.

We will also discuss preventive maintenance that pilots and owners may legally perform, along with practical ways to improve communication with your mechanic to help keep aircraft safe, airworthy, and operating smoothly.

After the seminar, stay for donuts, questions, and additional hangar talk with fellow pilots and mechanics.

Please register by [Clicking Here](#) so we can keep you in the loop of last minute cancellation.

Flying in? Set your sights on Roosevelt Airport 74V. CCR's hanger is the one furthest to the east.
