

Tailwheel Transition

Most 21st Century pilots learned to fly in something like the tricycle gear Cessna, Piper Cherokee, or Tomahawk, or perhaps a Beechcraft Musketeer. If you've been flying for a while and you're looking for a new challenge it may be time to expand your horizons with Tailwheel Aircraft Instruction and an endorsement.

Second floor of the KSVR FBO. Proceed to the end of the hallway. The conference room is located on the right side of the hall.

A message from the National FAASTeam Manager
