

Portland FSDO FAASTeam presents:

How NOT to Ruin Your Weekend

94% of general aviation accidents happen on non-commercial flights while the airlines continue to enjoy near zero accident rates year after year. So how do they do it? And most importantly, can that be done in your cockpit?

Come to this FREE WINGS seminar, "How NOT to Ruin Your Weekend - 10 Secrets of Threat and Error Management" to hear a pilot for a major airline talk about his first hand knowledge on how it's done in his world every day. You may be surprised to learn that it REALLY is simple, intuitive and practical.

This seminar will be a part of the Columbia-Cascades Ninety-Nines' November monthly meeting. Guests and visitors are welcome. Seats are limited so please be sure to register early.

Directions: Proceed toward the PDX Terminal on NE Airport Way. Look for the blue and white sign: "Business Aviation/Seaport Airlines" on your right just before the airline terminal onramp. Turn right at the next drive and turn left soon after at the boldly marked "T" in the road. Follow the road past the Embry Riddle buildings. Atlantic Aviation Services is in a building with a triangular glass roof in the middle. Come into the lobby and ask for the 99s. If you get lost, call: (503) 331-4220.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
Sign up for the FAA's safety services at www.FAASafety.gov!
