

Pearson Field (VUO) - New Air Traffic Procedures Briefing

Effective October 1, 2012 Portland (PDX) Air Traffic Control will be instituting new procedures for any operations in the Pearson Field (VUO) Class "D" Airspace. This pilot briefing is to inform pilots operating into and out of Pearson Field of the new procedures. This will be a good opportunity to get more information and ask questions on the procedures in the PDX-VUO Letter to Airmen found at this event posting on FAASafety.gov. There will be a Pearson Field Advocates for General Aviation (PAGA) Airport Appreciation Day event after the pilot briefing.

Directions: The Restoration Hangar is immediately to the left of the airport's main gate entrance.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
