

## Lessons Learned From the Crash of Air France Flight 447.

At this month's Second Saturday Seminar, Willamette Aviation CFI Dennis Lenihan will review Air France Flight 447 with a specific emphasis on what General Aviation pilots can learn from the disaster. Since the full story of Flight 447 has emerged over time, many pilots still have an incomplete understanding of the specific factors leading to the accident. Even after the final report there is more to talk about when we consider advanced avionics, equipment failures, and the need to prepare for the unexpected.

**Directions:** DRIVE IN - Two miles south of Wilsonville, just off I-5. 1/4 mile south of Arndt Rd.

FLY IN - Taxi to the very north end of the Aurora airport. Park on the ramp between the fuel island and the FBO building. AVOID OVERFLYING POPULATED AREAS. If you'd like lunch, call us (503-678-2252) before 1 p.m. on Friday, Oct. 12. The box lunch is \$12.

### A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
