

## Understanding Spatial Disorientation

Classroom presentation on the vestibular system of the inner ear and the effects of angular acceleration on pilot orientation and sense of balance. Seminar will include discussion of various vestibular illusions and how to preclude loss of control. Participants will experience spatial disorientation illusions in a Barany Chair demonstration to learn how to prevent the disastrous consequences resulting from spatial disorientation. Seminar is hosted by Oregon Pines 99s and is open to 99s and their flying companions.

**Directions:** In the hangar at Nutsch Aviation.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
