

ADS-B in the Northwest and Beyond

ADS-B will be replacing radar as the primary surveillance method for controlling aircraft. The U.S. will require the majority of aircraft operating within its airspace to be equipped by January 1, 2020. Learn how the system operates and how you fit into ADS-B. The OPA Convention is open to all. The OPA Convention has a entry fee at the door which includes a box lunch. The seminars are free.

Directions: Seminar is being held in Room C in the Santiam Building at the Linn County Expo Center on the east side of Albany Airport. If arriving by air there is aircraft parking next to the Expo Center or you can take the free shuttle from the west side aircraft parking to the Expo Center.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
