

OPEN TO THE PUBLIC

Oregon Pilots Association Convention
August 24, 2013

Registration Deadline: August 11; Cost \$15.00 (Lunch included)

Email: opa.valley@Q.com to reserve limited seating

Held in conjunction with the
Albany Art & Air Festival, Albany Expo Center, Albany Airport

General Assembly: 10 am - Swift Fuels - 100 No-lead Aviation Fuel

Keynote Speaker: 2:30 pm - AOPA Director will conduct a "Town Hall" style meeting and address the challenges of General Aviation and the impacts we will face in the future.

SEMINARS:

- **Aircraft Electrical Systems:** 9:00 Battery technology; testing and charging batteries. Alternators; with and without international regulators. Starters; gear reduction and permanent magnet.
- **Aviation Jeopardy:** 9:00 Have fun testing your knowledge on the Aeronautical Information Manual. *Wings Credit*
- **Wilderness Survival:** 9:00 Learn about survival kits, how to build shelters, collect food and water and how to affect your own rescue. *Wings Credit*
- **Controlled Airspace:** 9:00 & 11:00 How we interact with Air Traffic Control; Operations in Controlled and Uncontrolled Airspace. *Wings Credit*
- **The Future of Oregon Airports:** 11:00 The Oregon Dept. of Aviation will address the status of many of Oregon's airports and the Aviation Fuel Tax.
- **AOPA:** 11:00 The AOPA Regional Director will speak about AOPA's issues and initiatives that affect General Aviation in the Northwest Region.
- **Flying Companion Seminar:** 11:00 - 2:30 Non-pilots will learn: how to fly and land the airplane; basic navigation and radio skills. Understand the information from cockpit instruments.
- **100 No-Lead Av-gas:** 12:30 & 1:30 Swift Fuels will present their new 100 no-lead Av-gas. Swift Fuels is now in production in Europe and STC'd for some aircraft in the US. Swift answers all questions about its sustainable production as a bio-fuel and suitability for use in various aircraft.
- **ADS-B** 12:30 & 1:30 ADS-B will be replacing radar as the primary surveillance method for controlling aircraft. The US will require the majority of aircraft operating within its airspace to be equipped by January 1, 2020. *Wings Credit*
- **Aviation Weather:** 12:30 & 1:30 How to collect weather information from METARs, TAFs, FAs, FDs, and from Surface Analysis, Weather Depiction, Radar Summary and Prognostic charts. *Wings Credit*

There will be a "Flea Market" at the 2013 OPA Convention.
Bring whatever aviation articles you want to sell, put on a price tag,
and collect your money during the Social Hour.
