

Operations in Class D Airspace - A Look From Inside the Tower.

At this month's Second Saturday Fly-Out, we're getting a tour of the Troutdale Airport Tower. Attendees will ascend to the tower cab and observe controllers as they provide assistance and instruction to aircraft in their airspace. If you have never been in a control tower before, you probably will never think about them the same way again!

Directions: For our flyout this month we will tour the Troutdale (KTTD) control tower. Special admission requirements are in place to access control towers. Contact Willamette Aviation (info@willametteair.com) and CFI John Barringer will send you the coordinating information and flyout weather minimums.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
