

'Roger, Roger' and 'Tally-Ho'!

Have you ever heard pilots say, "Tally Ho", "On the Go", and what about, "Cessna N1234 landing strait in runway 33, any traffic in the area please advise"? In this seminar, we'll take a look at the finer points of good radio communications—one of the most important elements of safe flying (and something that causes many pilots a great deal of anxiety). We'll aim to clear up confusion, remind pilots of best practices, and help illuminate the "why" of things along the way.

Directions: Veterans Memorial Building 16th and Willamette. Parking lot in back of building or on street.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
