

Preparing for Winter Flying

Engine pre-heating, de-icing procedures, and survival packs are all different stresses in cold weather flying. But the cons can out weigh the positive. Instead of parking the plane until next June, learn some great tips on how to prepare for the season ahead.

Directions: Please join us in the 101 Upstairs Classroom

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
