

# Owner Performed Aircraft Maintenance and What You CAN Legally Do Yourself

There are many maintenance items outlined by the FAA that are legal for aircraft owners and aircraft operators to accomplish themselves, thus saving money and not compromising safety. Mr. Jay Matson-Bell, Aircraft Restoration Specialist at WAAAM, will give you tips and a list of preventative maintenance items that an owner/operator may do themselves.

**Directions:** From I-84: Take Exit 62 and turn right onto Cascade Ave. Turn right at the first traffic signal onto 13th St.. 13th St. joins with 12th St. and then becomes Tucker Rd.. From there it is only 1.5 miles to Air Museum Rd.. The museum is on the left side of Tucker Road. Look for the vintage Drive-In Theater sign at our entryway. Doors locked at 18:30 for security. Be sure to be there before 6:30PM

## A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
