

Autorotate and LIVE!

We hope to increase autorotation awareness by discussing types of rotor systems, autorotation procedures, techniques and factors affecting an autorotation's success. Second we will discuss Human Factors, in particular, ground and inflight distractions.

Directions: If coming from the east on 99W, take the exit to highway 18 and follow to the Airport on your left. Annual Lions Club pancake breakfast fly-in, drive-in, ride-in, begins at 7 AM; Safety Seminar begins at 9:30 AM, followed by more aviation events throughout the day, including helicopter rides, a "Long Line" demonstration, and a panel discussion on aviation careers.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
