

FAASTeam presents:

6th Annual Garmin Open House and Seminar Event

This is the only time of year that Garmin opens it's doors to the public. This facility is where many of Garmin's aviation products are developed, and manufactured. It will be a enjoyable evening created for especially for aviators, including factory tours, catered dinner, Garmin product prize drawings, and demonstration stations. During the Wings credit seminar, titled "NextGen Information Meeting", Portland FSDO ASI John Fisher will discuss the 2020 mandate for ADS-B, and how NextGen will enhance safety, reduce delays, save fuel, enable real-time sharing of weather data, and the location of aircraft throughout the National Airspace System. Thanks to Lightspeed Headsets for generously offering a prize drawing of one of their new Tango headsets, an \$800 value.

Directions: If flying in to Salem (KSLE), ask for progressive taxi to Garmin's ramp. If driving in, just look for the signs in the parking lot directing you to the fun.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
