

ATC and You - Working Together Through Real Life Scenarios

Course 2

In this interactive class, Controllers will review real life aviation scenarios based on today's topics presented in the NATCA Booth. Participants are encouraged to share their insights and learn from others' experiences. Attendees are encouraged to bring questions that will be addressed by experienced air traffic controllers. It is not necessary to have attended the previous classes to benefit from this course. This presentation will be given by controllers from Centers, TRACONS, and Towers. There will be time for Q&A.

Directions: We are located cross the road from the Control Tower.
