

EAA 105 // Potential HIO Airspace Changes and the FAA Compliance Program

Portland FSDO personnel Joe Mollahan and Larry Edeal will speak about potential KHIO airspace changes and the FAA Compliance Program. The focus will be on SAFETY based on RISK.

Directions: Please drive slowly and carefully along the left side of the parking lot past the rows of hangars. You will be on the east side of the hangars while you do that. When you see hangar row G, turn right and park as far forward as reasonable. Hangar G-1 is the last hangar on your left, closest to the runway. Dress warmly, there is not much heat in the hangar. Thank you.
