

FAASTeam presents:

Preparing for a forced landing

This 3-hour program will cover the following subjects:

Clay Trenz will introduce Flight Risk Assessment Tools/Methodology and practical examples of Aeronautical Decision Making (ADM) to help pilots improve their risk management skills.

This presentation will also share best practices regarding Search & Rescue methods, Remote Medical Considerations and pre-departure Survival Gear preparedness.

Special guests will share tactics on the following topics: "How to be found as quickly as possible" by Deschutes County Search & Rescue "Essentials of remote emergency medicine and staying stable" by Dr. Peebles "Onboard gear critical to survival" by Doug Ritter

Directions: Red building just south of SkyService/Leading Edge Jet Center hangar at Bend airport (KBDN).

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines
